NEWSLETTER

MAY 2019

Dear Parents,

Whilst the end of the school year is fast approaching, this has been a fantastic month of learning, discovering and growing by all our students. This time of year means our students are all busy practicing for the end of school year concert. Each class has planned some fun excursions and the children are all looking forward to them!

All the classes started our Water Play program and the children love going to the pool and learning all about water safety. As always, I have been impressed with the amount of children who are confident in the water and even more so with those who can swim.

As the weather is warming up, the days are longer and there is more time to be outside doing all kinds of fun things – going to the park or swimming! Even though the Sun is hot, it does cool things. It keeps us warm. It makes flowers and plants grow. It even gives us vitamin D so we can better absorb calcium into our bodies for strong bones. It is a timely reminder to ensure that we are all being sun safe and smart! Please ensure you put sunscreen on your child each morning, send a hat and water bottle for your child each day.

Our end of year concert will be on **Sunday, 16th June 2019** to be held at Vietnam National Convention Centre (NCC) Phạm Hùng, Mê Trì, Từ Liêm, Hà Nội. The children are all very excited to showcase their performance for you all.

We hope to see you all at the end of year school concert.

Upcoming Important Dates:

May 31 (Friday)	-	Children's Day Celebrations
June 16 th (Sunday)	-	End of Year Concert 9:00 am
June 20 th (Friday)	-	International Day Celebrations
June 28 th (Friday)	-	Last Day of term 4

Kind Regards,
Kelly Monos

News around the Classrooms

Nursery /Kindergarten 1 Class

This month we have been focusing on many group activities to help our student learn how to work nicely together. We have completed two STEM activities so far; Sink and float, as well as, How to blow up a balloon using vinegar and baking soda. The children have really enjoyed the morning sensory activities. This is to encourage children to learn through their senses and to help develop their fine motor skills through play. The children are also enjoying being more independent, we have been working on self-help skills and routines with the children. Each morning, once they have arrived at school, the children are to put their own bags and shoes away, take out their water bottles and then choose an activity.

Nursery Integrated – Bunny Class

While learning through our theme “Where are you from?”, Bunny class had much fun dying rice with food coloring and using colored rice to create three beautiful flags of three countries that our children come from. The students divided into three groups and each group was in charge of the flag of a country. They followed the teacher’s instruction very well. They picked up the rice carefully and placed the rice on the picture. What a fantastic and fun activity with our kids and they really loved it!

Kindergarten 1/Kindergarten 2 International – Monkey Class

This month we started our Water program. The children are learning how to become coordinated and kick and paddle at the same time so they can begin to swim. However, for some of our students these lessons are a way of them becoming more comfortable and confident in the water and unafraid. I am so proud of all the children for getting into the water and being so enthusiastic in their lesson.

Kindergarten 2 Integrated – Pony Class

In May, our Pony friends continued to practice for the end of year concert performance. All of the children are working extremely hard to ensure they know all the moves for their performance. Last Wednesday we started our Water play program. Already the children look forward to water play time every Wednesday. Part of our themes this month has been to learn about our senses and try different types of summer fruits. We tried mango, pineapple, jackfruit to help us learn about sweet and sour.

Kindergarten 1 Integrated – Penguin Class

In May the children in Penguin class had fun learning a lot of different topics. We had a focus on learning about Hanoi, in our theme 'I love Ha Noi', we learnt about Bac Ho and everything he did for Vietnam in our theme of 'Uncle Ho'. We made a picture of Ngoc Son temple and Uncle Ho frame.

Finally we learnt about the weather. We learnt about different types of weather – sunny, raining, storm, thunder and lightning. The children even discussed their favorite type of weather. The children also loved to play outside and drew lovely pictures about different kinds of weather conditions.

We really enjoyed playing and learning together with our friends and teachers.

Prep International

Prep International had a lovely and very busy month! The children worked very hard to achieve all their goals. This month we learnt about "Vietnam, the Vietnamese Culture, Food, the Flag, Traditions and Uncle Ho. We went to Pegasus for an excursion where the children learned to bake their own cakes. We practiced for the end of year concert!. The children are very excited about it. We also started with our Water play program every Wednesday. The children enjoy the water play very much. We are busy with adding and subtracting in Maths. The children worked on worksheets as well as in their Math books. We also started to recognize 3D Shapes. And finally we started with Tens and units.

Demeu had his Birthday. Happy Birthday Demeu!

News around the Classrooms

Prep Integrated

This month the Cub class, have had a big focus on ensuring they are “big” school ready! Our students are about to embark on the next stage of their education journey. What an exciting time it is for these children and their families. They have all worked so hard this year. This month students have been learning about the famous street artist Banksy. They have looked at different types of street art, and even discussions where they may have seen some street art around Hanoi. We have also investigated all the things we love about Hanoi and the surrounding area. The children also learnt about Uncle Ho.

We have explored making bubbles. The children enjoyed being scientist for the day and mixing their own solutions. The children have also enjoyed our Water play program. They look forward to going each week.
