June 2019

2018-2019 Graduation Ceremony

Staff and students ended the academic year with a celebration of the schools achievements at the graduation ceremony. All classes participated in making this event a splendid success and a memorable end to the year. Students put on performances of singing dancing and acting to entertain family and friends. Awards were also presented to students for achievements both inside and outside the class.

Many of the acts explored the theme of World Earth Day and the environmental challenges faced by our world. There were many spectacular costumes and innovative lights displays. Both staff and students worked tirelessly on putting all these performances over the last few months. All their efforts really showed in the performances.

For some students this may be their last graduation concert of SIS as they go on to study across the world. Hopefully this celebration of life at SIS will be memorable for them.

IN THIS ISSUE

- Graduation Ceremony
- Kizciti Excursion
- STEM City
- KIK Graduation

Dear Parents

Thank you for your unselfish and generous support during the past year. We have achieved so much and our students have performed very well – academically as well as learning outside the classroom. Congratulations to all who have passed, received special awards and we look forward to their continued success.

Looking forward to seeing all our students back on Monday 5 August 2019

Dudley Schroeder
Principal

Photos from the Graduation

STEM City

Building on the STEM activities this term Class 7 International have been doing a STEM project to create a computer controlled city. STEM has in recent years become an important area of study. Increasingly students need to be technologically literate as industry and changes rapidly. Who knows perhaps one of these bright students will be a city planner of the future designing intelligent automated cities - here in Vietnam.

First SIS student Graduating

Hello my name is Daniel from IGCSE2 and this is my final year at SIS VT. I have been at this school from the very beginning.

The best memory that I have from the 10 years that I have been here, would be learning with my longtime friends. Although I have been with them for a long time, having friends with you for a long time makes school a lot more fun and encourages you to come to school.

Years 1, 2 and 3 L

Among the many excursions on Wednesday 12th June was a trip to Kizciti by 1,2 and 3L. The children had an opportunity to experience many different kinds of jobs and find out about different industries. Students learnt about the dairy industry, how milk is produced and how water is purified. They also had the opportunity to be firefighters and put out a pretend fire. After lunch the students had the chance to relax and have fun in the swimming pool before finally heading home.

Reminder:

School reopens on Monday 5 August 2019 for the new academic year 2019 - 2020

KIK Graduation

The brave students of Prep classes celebrated their graduation on Friday as well. Each student was presented with a certificate by Mr Peter Baker in honour of their achievement. The KIK students also put on a fantastic show of singing and dancing with some fantastic costumes and choreography.

Thank you for the wonderful support parents – enjoy the holidays with your children and bring them back safe. We look forward to an even greater year ahead. From all of us at SIS @ Vung Tau
