NEWSLETTER

SEPTEMBER 2018

Dear Parents

What a great month we have had in September! I would like to thank you all for your support during the first two months of school. The children have all settled into their classes and routines. They are all busy learning and growing each day!

This month we had a big focus on STEM learning activities. In week 7 of the term students at KIK participated in a different STEM activity each day. This week was a lot of fun not only for our students but our teachers. We would like to thank all the parents and grandparents who came to our STEM morning on Friday 21st September.

This month we also celebrated the Mid-Autumn Festival. The children were all so excited to come to school on Monday dressed in their traditional dress. KIK Ciputra students joined in celebrations at SIS Ciputra. The students of SIS did an amazing job with the Lion dances and some of the children from the Prep class also joined in the Lion dancing.

School Procedures

I would like to remind parents that it is really important that you accompany your child to the classroom each morning. Children should be in their classrooms ready to start the day by **8:30am**. In the afternoons, all children should be picked up from their classroom between **3:30pm – 4:00pm**.

Please ensure that you sign your children in and out each day.

School Uniforms

Children need to be in their school uniforms each day. The PE uniform needs to be worn on Fridays and when the children go on an excursion.

Thank you for reviewing this month's newsletter. Please remember that if you have any questions or concerns throughout the coming year I welcome you to contact me. I would be happy to speak with you.

Kind Regards,

Kelly Monos
Head of Studies

Sensory Play in Nursery Integrated Bunny Class

This month the children in the bunny class had a wonderful learning sensory learning opportunity. Sensory play with rice is a great way for children to learn and is a wonderful tool for evoking the sense of touch and feel. This month we used rice play; which can be used in a variety of playful, imaginative ways and the children of Bunny Class were very excited to experience this sensory activity. The children were able to learn some basic colors: Red, Green and Yellow. It also helped them develop their fine-motor skills required for writing, picking up tiny grains, passing handfuls from hand to hand, or scooping and pouring. The children in the Bunny class loved this exciting and fun activity.

Moon Cakes – Mid Autumn Festival in the Butterfly Nursery K1 International class

On Friday 21st of September Nursery K1 International class continued their preparations for the upcoming mid- Autumn Moon Festival by learning how to make tradition Moon Cakes! Everyone had so much filling the cakes and pressing them into the moulds. We have also been busy making lanterns and decorating lion masks for the big day!

K1 Integrated Penguin Class – STEM and Moon Cakes

This month has been an exciting month for the Penguin class. We had a big focus on STEM activities and experiences. The children really enjoyed participating in all the STEM activities. Some of our activities during STEM week included – water play – what will sink and what will float; painting with oil and food colouring; making a marble obstacle course and numbers counting with shapes.

The Penguin class were also excited to celebrate the Mid-Autumn Festival. The children participated in art and craft activities and made moon cakes. They also had a lovely celebration in their class with lots of yummy fruit and treats.
